The Capsula luminaire is a brilliant pendant light design composed of two convex capsules, one overlapping the other and fusing into a singular form. The design resembles cells or plant seeds and evokes the metaphor of light as the source of life. The combination of a crystal-clear glass outer shell and an internal capsule of coloured glass gives rise to an exciting 3D optical effect, while the tubular LED light source casts soft and gentle illumination throughout any interior. As of 2015, a version of Capsula has been available featuring frosted inner glass, thanks to which the light assumes an entirely new ambient character.
